and ſafer than ever it was : *To* ſend out his Fleets, for a ſpecial countenance of Trade, and at the ſame time for a ſatisfaction to many conſiderable Philoſophical Inquiries in moſt parts of the World : *To* ſtrengthen his remoteſt Dominions; and *to* ſecure and cultivate his American Colonies, for the Silk-trade, and the growth of ſuch beneficial Vegetables, as thoſe ſeveral Soils in ſeveral diſtant Climats will bear; Not intermitting thoſe elegant Ingenuities of beautifying his Coyn with the faireſt and really Gardian-ſtamps; and of ſtoring his Cabinets with the Curioſities and Rarities of Art and Nature, for the encouragement of Sculpture, Picture, and of no ſmall number of Artificial Practices and uſefull Inventions. To be ſhort, his Majeſty ſoon gave to all the Kingdom, in *St. James's Park*, and *Hide Park*, in the Approches to his faireſt Palaces, and in his Forreſts, Illuſtrious Patterns for the beſt Improvements, and for a copious Variety of all kinds of Amænities. Now when our idle Multitudes ſhall be ſtrongly inured to thoſe innocent and profitable Employments, till all our *Hills*, which are now bald, ſhall be ſhelter'd with the Cheſnut, the Beech, the Pine, Box, Maple, and the Royal Oak; and all our *Valleys* adorn'd with the fruitful Knots of *Cyrus*, and like the golden Gardens of *Alcinous*; then ſhall we have fair grounds to hope for the bleſſings of Peace and Plenty, and the Juncture of ſound and uſefull Philoſophy with Chriſtian Charity; and of true Religion and Piety with cheerful Loyalty; and then we ſhall truly deſerve the Old Style of the *Fortunate Iſlands*, and the *Gardens of Heſperides*.

ERRATA in Numb. 52.
